Re: Chris Street Improvements – First Street to 500' North
Worthing, SD

Dear Property Owner/Resident:

The City of Worthing has awarded Black-Top Paving of Sioux Falls the street reconstruction of Chris Street from First Street to 500' north. The project cannot begin until June 1, 2020 and must be completed within 50 calendar days or by August 31, 2020 (whichever comes first). Currently, Black-Top Paving expects to begin in mid to late June (subject to change). You will receive another notification when Black-Top Paving solidifies their schedule (48-hour minimum notice).

During the project, Chris Street will be closed from First Street to 500' north. The closure location is shown on the attached map. During the road closure, driveways will not be accessible. Any vehicles you need to use should be parked off-site beginning the evening before the work begins. This closure of Chris Street is expected to last one month (weather permitting). Initially the pavement will be removed, and dirt work will be performed. Gravel installation and curb repairs will follow. Finally, asphalt paving will complete the project. Due to the road closure, the postal service will not be able to deliver mail to your mailbox during construction. Temporary mailboxes will be set up on First Street for 100 – 107 North Chris Street. Temporary mailboxes for 200 – 207 North Chris Street will be set up on the east side of Chris Street north of the project limits. Mailboxes north of 207 North Chris Street should not be impacted. Also, existing mailboxes may be temporarily removed during construction. If your mailboxes are temporarily removed, they will be reset following construction. Finally, you will need to contact your garbage service provider to let them know about the project and to arrange for garbage pick-up.

Feel free to contact us with any questions or comments regarding the project. Our office number is (605) 338-6668. Project Engineer is Jon Fischer (605) 261-0361 (jfischer@stockwellengineers.com). Thank you in advance for your patience throughout this process.

Respectfully submitted,
